SAFETY INFORMATION

About Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms — children and teenagers are more likely than adults to experience these seizures.

The risk of photosensitive epileptic seizures may be reduced by sitting farther from the television screen, using a smaller television screen, playing in a well-lit room, and not playing when you are drowsy or fatigued. If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

Other Important Health and Safety Information The Xbox Instruction Manual contains important health and safety information that you should read and understand before using this software.

Avoid Damage to Your Television

Do not use with certain televisions. Some televisions, especially front- or rear-projection types, can be damaged if any video games, including Xbox games, are played on them. Static images presented during the normal course of game play may "burn in" to the screen, causing a permanent shadow of the static image to appear at all times, even when video games are not being played. Similar damage may occur from static images created when placing a video game on hold or pause. Consult your television owner's manual to determine if video games can be played safely on your set. If you are unable to find this information in the owner's manual, contact your television dealer or the manufacturer to determine if video games can be played safely on your set.

Unauthorized copying, reverse engineering, transmission, public performance, rental, pay for play, or circumvention of copy protection is strictly prohibited.

1. Set up your Xbox video game system by following the instructions in the Xbox Instruction Manual.
2. Press the power button and the status indicator light will light up.
3. Press the eject button and the disc tray will open.
4. Place the **V-Rally® 3** disc on the disc tray with the label facing up and close the disc tray.
5. Follow on-screen instructions and refer to this manual for more information about playing **V-Rally 3**.

Avoiding Damage to Discs or the Disc Drive

To avoid damage to discs or the disc drive:

- Insert only Xbox-compatible discs into the disc drive.
- Never use oddly shaped discs, such as star-shaped or heart-shaped discs.
- Do not leave a disc in the Xbox console for extended periods when not in use.
- Do not move the Xbox console while the power is on and a disc is inserted.
- Do not apply labels, stickers, or other foreign objects to discs.

1. Connect the Xbox Controller to any controller port on the front of the Xbox console. For multiple players, connect additional controllers to available controller ports.
2. Insert any expansion devices (for example, Xbox Memory Units) into controller expansion slots as appropriate.
3. Follow on-screen instructions and refer to this manual for more information about using the Xbox Controller to play **V-Rally 3**.

Watch out! These are the default controls:

Control	Menus	In-game
Y button		Change view
B button	Cancel / Back	Hand Brake
left trigger		Brake and reverse
right trigger		Accelerate
Black button		Rear view
White button		Back on track
X button	Help (when available)	Change gear up
A button	Confirm	Change gear down
left thumbstick	Navigate menus	Steering
START button	Confirm	Pause game
BACK button	Cancel / Back	
directional pad	Navigate menus	Steering

Drivers

To play **V-Rally 3** you must create a driver. You can create up to eight different drivers.

Create

Everything starts here. First enter your last and first names, using the **directional pad** to highlight each letter of your name. Press the **A button** to confirm each letter. Select **SPC** to add a space, or **DEL** to delete a letter. Select **OK** and press the **A button** when you are finished.

Next, choose a nationality and look for your driver. Use the **directional pad** to select the flag of your chosen nation and press the **A button** to confirm. Select a look for your driver, using the **directional pad** to scroll through the available drivers and press the **A button** to confirm your choice.

Finally, select **OK** and press the **A button** when you are ready to hit the road.

Note: You can't play **V-Rally 3** if you have not created a driver.

Delete

If you wish, you can delete the driver(s) you have already created. Select the name of the driver you want to delete and press the **A button**.

Compare

To compare the performance and records of two drivers, select **Compare** and choose the first driver you want to compare from the on-screen list and press the **A button**. Then select the second driver for comparison and press the **A button**.

Drivers are compared in **Track Time**, **Challenges**, **V-Rally Mode** and **Overall**. In **Track Time** and **Challenges**, drivers are compared either on a per country basis or overall. In **V-Rally Mode**, drivers are compared by details (each driver's score through his/her career) or progression (how far each driver has progressed through the game). **Overall comparisons** shows each driver's score for the entire game in all modes.

Pressbook

The **Pressbook** contains two separate volumes that summarize the records and important events in your career. The **Records** album contains your course records and the records you've set in **Challenge Mode** throughout your career. The **Seasons** album shows the development curve for your career, your total victories and points, the development of your personal characteristics and pictures testifying to the great moments of your career.

V-Rally Mode

In **V-Rally Mode**, you play out your career. Prove yourself in the **1.6L FWD** (Front Wheel Drive) category, and work your way up at your own pace. Aim for the top to win the supreme title: **Champion of the 2.0L 4WD** (Four Wheel Drive) category.

New

Start your season by signing a contract with a new team, or renewing your contract with your team from the previous season. You'll have several offers in the **1.6L FWD** category. You can choose from several different teams and cars. The choice is yours.

Show some skill behind the wheel and you may attract the attention of the top **1.6L FWD** and even a few **2.0L** teams at the end of your first season. Give it your best shot!

Resume

Continue your **V-Rally** career already in progress.

Quick Races

Time Attack

Time Attack Mode is a great way to practice getting the best possible times on the same courses as **V-Rally Mode**. You can compete against your own ghost if you so choose.

Up to four players can compete on a course, each taking the starting line in turn. Watch out! You may beat the specified time, but you must also beat the times of the other players.

Once you've completed all of the courses in one country, you can race all of the courses in that country in the opposite direction.

Challenge

This game mode is a series of competitions that you compete in one after the other. Only the first **Challenge** is available at the start of the game. As new challenges appear, the difficulty level increases. In certain **Challenges** you can choose your car and make adjustments.

Each competition is made up of at least three stages and has a total time in which to complete all the stages. You need to beat this time to win and move up to the next **Challenge**.

In a **multiplayer challenge**, the aim is not to beat a specified time, but to race against other players' total times.

Options

Adjust game settings here. See the next section for details.

These options apply to all game modes for all players.

Display

Speed Unit: Use the **directional pad** to choose between MPH (miles per hour) and KPH (kilometers per hour). Press the **A button** to confirm your choice.

Texts: Use the **directional pad** to select in which language the game text appears. Press the **A button** to confirm your choice.

Audio

Volumes: Press up or down on the **directional pad** to choose between Menu SFX, Menu Music, Race SFX, Car Engine and Navigator. Press left and right on the **directional pad** to adjust the volume up or down. Press the **A button** to confirm your choices.

Speech: Press left and right on the **directional pad** to choose the language spoken during the game. Press the **A button** to confirm your choice.

Misc.

Exit: Returns you to the Main Menu and saves your changes to the options.

Default: Restores all settings to their defaults.

Save: Press left and right on the **directional pad** to select between auto-save and manual save. In manual save mode, you must save your game each time you are prompted during the game or game data will not be saved. Auto-save handles the saving of your game automatically.

Credits

These are the folks who made your racing experience possible.

Pause Menu

Game: Restart, Resume or Abort your current race.

Driving Options: Here you can set the vibration function to high, medium, low or OFF, change Gear Box (manual or automatic), adjust the steering sensitivity, adjust acceleration sensitivity, and change brake sensitivity.

Display Options: This changes which items are displayed on the game screen during a race. You can turn the Sectors, Navigator, Revs/Speed, Gear Box and Timers ON or OFF.

Audio Options: Adjust the volume of the Car Engine, Race SFX and Navigator.

Replays

At the end of a race, select Replay from the available options to watch the race you just finished. By selecting Telemetry (if available), you can view specific variables of your race performance in real time. Telemetry mode shows your speed, brake pressure, grip and gear selection, along with a display showing your car and the route traveled over the course.

During a replay, Press the **Y button** to change which camera views the action. Press any controller button to bring up the replay controls display at the bottom of the screen. Press left and right on the **directional pad** to move between the on-screen buttons.

The Office

Manage and follow your career from your office. Press left or right on the **directional pad** to move through the items in your office. Press the **A button** to select an item.

E-mails

Use the computer and e-mail to see proposals you've received from teams, check contracts, and access other information relevant to your career. Teams will send you e-mail to offer you contracts and try-outs. Scroll through the e-mails by pressing up or down on the **directional pad**. Press the **A button** to read the selected e-mail or press the **B button** to return to the office.

Rankings

This shows you the various ranking statistics for drivers and teams in both the 1.6L FWD and 2.0L 4WD classes. Select a vehicle or team class and press the **A button** to view the info.

Data

Here you can see your goals and personal data. Goals change throughout the course of your career. Data is updated to reflect your experience through your career. You will be ranked in four areas:

Velocity: Speed is the key to racing success. Nobody becomes a champion by being slow. Speed is not all it takes to make a champion — but it certainly helps!

Consistency: A great driver is always consistent. It's no good breaking records in one stage, then flying off the course in the next. Know when to take your foot off the accelerator.

Experience: The more rallies you race, the more respected a driver becomes.

Goals: Achieving fixed goals is important to a team that has to answer to its sponsors. It is better to deliver a respectable performance than to take unnecessary risks.

Pressbook

For more information on the Pressbook, see page 4.

Rally!

Once you have signed a contract, you can start racing by selecting Rally! You may also save your data or quit the game at this point.

Create a Winning Team!

While you read the contracts, check out the team information. This information on the side of the screen features several items: the name of the team, the car, the team's category standing in the previous season, and the team's strong and weak points and morale.

Morale

This is directly linked to your results. Fulfill your goals and improve your team's standings, and morale will soar. Otherwise it will plummet. Staff morale has a direct affect on car repair times when you visit the Service Area.

Reliability

Reliability affects the strength of your car. Your car is more likely to break down with an unreliable team. Each team has its own reliability factor that is re-evaluated at the end of each season. The better your team's results, the more reliable it becomes.

Budget

At the start of a season, each team receives a budget in proportion to its ranking. The budget allows you to improve your car and win more races. As your cars get better and your results improve, you will receive a larger budget. Before signing a contract, review the team's ranking and make your own decision regarding the team budget.

Last Position

At the end of each rally and at the end of a season, teams are ranked according to their results. At the end of each rally, points obtained by each team's cars are added to those of previous rallies and the teams are ranked accordingly. When two teams have the same number of points, their standing is decided on the best race position achieved.

Contract Clauses

The contract you sign with a team will set your goals. The clauses are as follows:

Length: The contract always applies to a single season and is renewable.

Goal for the season: This depends on the team's position in the previous year's standings.

Get that helmet, grab those gloves and settle into the driver's seat. The serious business of racing starts here!

A Season

A season is made up of several rallies over a year. Every rally takes place in a different country and is made up of several stages. Rally order during a season is always the same. But every year all stages can be modified, so you will notice a change each year!

There are four rallies in the 1.6L FWD category and six in the 2.0L 4WD category.

Anything can happen during the season — other teams may contact you if your results are excellent, or you might crash your car and be unable to achieve your team's goals. Keep your strategy tight throughout the competition, establish priorities for repairs and adjustments, and adapt your driving style to each rally. Think and act like a championship driver.

In the Service Area

At this strategic location you can fine-tune your motor, make repairs, and access information about weather and track conditions before starting a stage. You also receive information about upcoming events.

A whole season can be won or lost in the Service Area. How you analyze information, the decisions you make and the time you take, mean the difference between winning and losing. The list of damaged or critically worn parts is displayed, classified in order of importance.

The first time you head into the Service Area, take a good look at all options offered:

Repairs

Repair your car when it's damaged during the race.

Info

Review race conditions for each stage, check rankings, and read goals.

Setup

These options set up different elements of your car in line with your strategy — tires, brakes, suspensions, etc.

Driving

Modify options described on page 13.

The Pre-season

The Pre-season is important! Your choices in the Pre-season affect the development of your career. During the Pre-season, you find yourself in your office to make decisions that influence the upcoming season. You receive offers of contracts from teams that have approached you during the preceding season as well as their credentials.

Between Rallies

Between two rallies or between two seasons, you return to your office. There are a few differences from the Pre-season:

- Proposals from other teams do not come in the form of contracts, but in the form of try-outs and tests. You can always plan a transfer to another team, if you receive a better offer.
- You also have access to the rally debriefing for the previous race.

The Race Screen

The following elements shown on screen give you important information about the status of your car and the progress of your race.

Sector Timer

Shows stage completion time in Time Attack and Time Challenge; and position and gap time in V-Rally Career.

Turns

Shows you the nature of the upcoming turn.

Sectors

The number of sections of the stage that you've completed.

Timer

Shows you how long the stage has taken.

Gap

The amount of time between you and the leader.

Tachometer

How many RPMs your engine is running at.

Wheelspin

Tires will flash orange when they begin to slip. When the wheel is blocked, the icon turns red.

Gear

What gear your transmission is in.

Speedometer

How fast you're going.

Shift Light

This light blinks when it's time to shift up.

Throughout **V-Rally 3** you will have opportunities to fine-tune the setup of your car. The way you set up your car has a dramatic impact on race performance. Each part of the car can be tuned to your personal preferences, or to suit the varying weather and track conditions. In the car setup screen, the following items can be adjusted.

Tires

Selection: Tire selection is an essential part of the car preparation process. You can select any of the 12 tire types, but the manufacturer will recommend three types of tire for each country. It's up to you to choose the best-adapted tire for the surfaces you will encounter, taking weather conditions into account.

Pressure: Reducing tire pressure can improve grip on slippery surfaces by increasing the area of the tire in contact with the ground. Conversely, increasing the tire pressure reduces the area in contact with the surface, increasing speed at the expense of grip. Selecting different pressures for the front and back can change the balance of the car.

Chassis

Suspension: Suspension settings can improve grip and car stability depending on the surface. On smooth surfaces, hard suspension is appropriate. Softer suspension is better suited to bumpy and irregular tracks. Selecting different suspension for the front and back can change the balance of the car.

Ride Height: Adjusting the ride height depending on the irregularities of the surface can make the car easier to handle. A low ride height is generally associated with a hard suspension, for smooth surfaces such as asphalt. A high ride height with a soft suspension is better for courses with bumpy surface and jumps.

Stabilizers: Stabilizer bars add rigidity to the car and reduce the torsion that results from rapid shifts in weight. Large diameter bars provide optimal control on smooth surfaces with good grip such as asphalt. Stabilizer bars are not recommended for very irregular or very slippery surfaces, such as mud, in order to preserve maximum grip.

Mechanics

Gearbox Ratio: Gearbox ratios affect the top speed and acceleration characteristics of your car. A short gear ratio provides faster acceleration, but top speed is diminished. Faster acceleration is useful on courses with a lot of turns and twists, as it will improve your ability to exit corners faster. A long gear ratio lessens acceleration, but increases top speed. Courses with long straight sections and fewer turns are suited to a longer gear ratio.

Differentials: Opening or closing the front and rear differentials can adjust the control of torque to each wheel. The central differential divides the power of four-wheel drive cars between the front and rear axles. The distribution of power has a direct influence on the car's tendency to oversteer or understeer. Cars in the 1.6L FWD class have only a single differential located in the front.

Brakes: Braking can be adjusted via two settings. The first divides the braking power between the front and rear brakes in order to modify the car's tendency to oversteer or understeer while braking. The second setting adjusts the force of braking. At the maximum level, braking distance is reduced if there is significant grip, but the wheels will lock up easily on low-grip surfaces. Shorter braking distance is achieved by selecting the right amount of braking power for the surface.

OK

Exit: This option takes you out of the car setup screen.

Get From: You can use this option to retrieve settings from a course and country that you've already set up your car for. Press left and right on the **directional pad** to select the country, and press up and down on the **directional pad** to choose the track.

Save: (Available in Quick Race only) You can save your car setup for future use on the same country and track, or for loading from the car setup screen in other countries.

Driving

You can change your Driving options after the car setup screen, or through the pause menu during a race. The following options are available:

Driving Options

Gear Box: Choose Manual or Automatic.

Steering: Adjust the amount of sensitivity in the steering.

Acceleration: Adjust the sensitivity of the acceleration function.

Brakes: Adjust the sensitivity of the braking function.

Ghost: Turn the ghost car available in Time Attack ON/OFF.

Controllers

Configure: Change which function is assigned to a particular button.

Vibration: Adjust the vibration function to High, Medium, Low or OFF.

INFOGRAMES WEB SITES

To get the most out of your new game, visit us at:

<http://www.us.infogrames.com>

To send e-cards to your friends, download wallpapers, or get access to other free stuff, visit our Freebies section at:

www.us.infogrames.com/freebies

If you would like to chat with other gamers, as well as developers, visit our Community Forum area at:

www.ina-community.com

Kids, check with your parent or guardian before visiting any web site.

Chat Messages: Infogrames does not monitor, control, endorse, or accept responsibility for the content of chat messages. You are strongly encouraged not to give out identity or other personal information through chat message transmissions. Kids, check with your parent or guardian if you are concerned about any chat you receive.

Use of Infogrames web sites is subject to terms and conditions, which you can access at:

www.us.infogrames.com/terms_of_service.asp

All rules and events represented in the game are fictitious and are made to create the best entertainment value in the video game. Results of the game will only reflect the ability of the player. The virtual vehicles in the game are not to be considered as a portrayal of reality. V-Rally 3 game play and rules are copyrighted.

Help Via the Internet

Up-to-the-minute technical information about Infogrames, Inc. products is generally available 24 hours a day, 7 days a week via the Internet at:

<http://www.ina-support.com>

Through this site you'll have access to our **FAQ** (Frequently Asked Questions) documents, our **Hints/Cheat Codes** if they're available, and an **E-Mail** area where you can get help and ask questions if you do not find your answers within the **FAQ**.

Note: In the event we must send you a Hint Sheet, FAQ document, patch or update disc via E-mail, we may require verifiable consent from a parent or guardian in order to protect children's privacy and safety online. Consent Forms are available at the web site listed above.

Help Via Telephone/Fax or Mail in the United States & Canada

For phone assistance, call Infogrames, Inc. **Tech Support** at **(425) 951-7106**. Our **Interactive Voice Response** and **Faxback** system is generally available 24/7, providing automated support and allowing FAQ documents to be faxed to you immediately.

This console-based product has automated support which includes information such as gameplay tips, information on Control Keys, possible Cheat Code combination keys, and instructions for finding secret screens and/or additional game levels (if these type of items exist and are made available for this particular product).

Great News! We've improved our Automated Systems so that you can get product-specific Troubleshooting help more quickly. All you need to do is enter the product's **Tech Support #** when prompted to do so. This will take you directly to all of our known issues and solutions for this title. The product's **Tech Support #** is located in several places (on the CD label, Game Pak, package and/or plastic disc case, if applicable) and is usually identified by a number such as **04-12345**. When prompted by the Automated System, enter the **last five digits** of your product's Tech Support #. (For example, Tech Support # 04-12345 would require that you enter the "12345" portion of the number for that product.) **Note:** Some products simply feature a five-digit Tech Support # without an "04-" prefix.

Live support is generally available Monday through Friday, 8:00 AM until 6:00 PM (Pacific Time). **Note:** We may be closed on major holidays.

You may also fax in your Technical Support questions or problems to: **(425) 806-0480**, or write to the address below.

Product Return Procedures in the United States & Canada

In the event our technicians at **(425) 951-7106** determine that you need to forward materials directly to us, please include a brief letter explaining what is enclosed and why. Make sure you include the Return Merchandise Authorization Number (RMA#) supplied to you by the technician, and your telephone number in case we need to call you. Any materials not containing this RMA# will be returned to you unprocessed. Send your materials to the following address:

Infogrames, Inc.

RMA #:

Warranty Policy in the United States & Canada

If our technicians determine that the product storage medium is found to be defective within ninety (90) days of original purchase, (unless otherwise provided by applicable law), Infogrames, Inc. will replace the item free of charge, to the original purchaser, if the item is accompanied by the original dated receipt and packaging. If you do not have the original receipt, or if the warranty period has expired, Infogrames, Inc. will replace the product storage medium for a nominal fee.

IMPORTANT — READ CAREFULLY: Please be sure to carefully read and understand all of the rights and restrictions described in this End-User License Agreement ("EULA").

AGREEMENT

This document is an agreement between you and Infogrames, Inc. and its affiliated companies ("Company"). The enclosed software game disc(s), cartridge or Game Pak ("Software") and any accompanying printed materials are licensed to you only on the condition that you accept all of the terms contained in this EULA.

By opening this package and installing or otherwise using the Software you agree to be bound by the terms of this EULA. If you do not agree to the terms of this EULA you may not install or use the Software and within 15 days of purchase you must call the Tech Support telephone number listed in the manual accompanying the Software (the "Manual"). Select the Automated Phone System's Main Menu option for Consumer Services and follow the prompts.

You will be given a Return Merchandise Authorization number (RMA #) by the technician. You then have 15 days from the date of this contact to return the Software in its protective covering, the Manual and the original sales invoice to the address supplied to you.

If this is a PC product, when you install the Software you will be asked to review and either accept or not accept the terms of the EULA by clicking the "I Accept" button. By clicking the "I Accept" button you acknowledge that you have read the EULA, understand it and agree to be bound by its terms and conditions.

COPYRIGHT

The Software is protected by copyright laws and international copyright treaties, as well as other intellectual property laws and treaties. All title and copyrights in and to the Software (including but not limited to any images, photographs, animations, video, music, text and "applets" incorporated into the Software) and any printed materials accompanying the Software are owned by the Company or its Licensors.

GRANT OF LICENSE

The Software is licensed and not sold to you and its use is subject to this EULA. The Company grants you a limited, personal, non-exclusive license to use the Software in the manner described in the user documentation. The Company reserves all rights not expressly granted to you in this EULA.

PERMITTED USES

1. If the Software is configured for loading on a hard drive, you may install and use the Software on a single computer.
2. You may make and maintain one copy of the Software for backup and archival purposes, provided that the original and copy of the Software are kept in your possession.
3. You may permanently transfer all your rights under this EULA, provided you retain no copies, you transfer all of the Software (including all component parts, the media and printed materials and any upgrades) and the recipient reads and accepts this EULA.

RESTRICTIONS

1. You may not delete or obscure any copyright, trademark or other proprietary notice on the Software or accompanying printed materials.
2. You may not decompile, modify, reverse engineer, disassemble or otherwise reproduce the Software.
3. You may not copy, rent, lease, sublicense, distribute, publicly display the Software, create derivative works based on the Software (except to the extent expressly permitted in the Editor and End-User Variation section of this Agreement or other documentation accompanying the Software) or otherwise commercially exploit the Software.
4. You may not electronically transmit the Software from one computer, console or other platform to another or over a network.
5. You may not use any backup or archival copy of the Software for any purpose other than to replace the original copy in the event it's destroyed or becomes defective.

EDITOR AND END-USER VARIATIONS

If the Software includes a feature that allows you to modify the Software or to construct new variations (an "Editor"), you may use such Editor to create modifications or enhancements to the Software, including the construction of new levels (collectively the "Variations"), subject to the following restrictions. Your Variations: (i)

must only work with the full, registered copy of the Software; (ii) must not contain modifications to any executable file; (iii) must not contain any libelous, defamatory or other illegal material, material that is scandalous or invades the rights of privacy or publicity of any third party; (iv) must not contain any trademarks, copyright-protected work or other property of third parties; and (v) may not be commercially exploited by you, including but not limited to making such Variations available for sale or as part of a pay-per-play or timesharing service.

TERMINATION

This EULA is effective until terminated. You may terminate this EULA at any time by destroying the Software. This EULA will terminate automatically without notice from the Company if you fail to comply with any provisions of this EULA. All provisions of this EULA as to warranties, limitation of liability, remedies and damages will survive termination.

LIMITED WARRANTY AND DISCLAIMER OF WARRANTIES

You are aware and agree that use of the Software and the media on which is recorded is at your sole risk. The Software and media are supplied "AS IS." Unless otherwise provided by applicable law, the Company warrants to the original purchaser of this product that the Software storage medium will be free from defects in materials and workmanship under normal use for ninety (90) days from the date of purchase. The warranty is void if the defect has arisen through accident, abuse, neglect or misapplication. If the Software fails to conform to this warranty, you may at your sole and exclusive remedy, obtain a replacement free of charge if you return the defective Software. Follow the Product Return Procedures described in the Manual. The Company does not warrant that the Software or its operations or functions will meet your requirements, or that the use of the Software will be without interruption or error.

TO THE FULLEST EXTENT PERMISSIBLE UNDER APPLICABLE LAW, EXCEPT FOR THE EXPRESS WARRANTY SET FORTH ABOVE, THE COMPANY DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING AND WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT. EXCEPT FOR THE EXPRESS WARRANTY SET FORTH ABOVE, THE COMPANY DOES NOT WARRANT, GUARANTEE OR MAKE ANY REPRESENTATION REGARDING THE USE OR THE RESULTS OF THE USE OF THE SOFTWARE IN TERMS OF ITS CORRECTNESS, ACCURACY, RELIABILITY, CURRENTNESS OR OTHERWISE. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF OR LIMITATIONS ON IMPLIED WARRANTIES, SO THE ABOVE EXCLUSIONS AND LIMITATIONS MAY NOT APPLY TO YOU.

LIMITATION OF LIABILITY

IN NO EVENT WILL THE COMPANY OR ITS EMPLOYEES OR LICENSORS BE LIABLE FOR ANY INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL OR PUNITIVE DAMAGES, OR ANY DAMAGES WHATSOEVER (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR INJURY TO PERSON OR PROPERTY, FOR LOSS OF PROFITS, BUSINESS INTERRUPTION, LOSS OF BUSINESS INFORMATION, LOSS OF PRIVACY, FAILURE TO MEET ANY DUTY AND NEGLIGENCE) ARISING OUT OF OR IN ANY WAY RELATED TO THE USE OR INABILITY TO USE THE SOFTWARE, EVEN IF THE COMPANY OR AN AUTHORIZED REPRESENTATIVE OF THE COMPANY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF LIABILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE EXCLUSION MAY NOT APPLY TO YOU.

IN NO EVENT WILL THE LIABILITY OF THE COMPANY FOR DAMAGES WITH RESPECT TO THE SOFTWARE EXCEED THE AMOUNTS ACTUALLY PAID BY YOU FOR THE SOFTWARE.

CHOICE OF LAW AND VENUE

This EULA is governed by the laws of the United States of America and the State of New York, exclusive of its conflicts of law provisions. The exclusive venue for litigation regarding or arising from this EULA is New York County, New York and you agree to submit to the Jurisdiction of the courts of New York County, New York for any such litigation.

MISCELLANEOUS

If any provision or portion of this EULA is found to be unlawful, void, or for any reason unenforceable, it will be severed from and in no way affect the validity or enforceability of the remaining provisions of the EULA.

This EULA constitutes the entire agreement between you and the Company regarding the Software and its use.
